

Solihull EAL Tracker

Key Stages 1 and 2

Guidance for using the EAL Tracker

The Solihull EAL Primary Tracker is an assessment framework which has been developed to support practitioners in tracking the progress of their English as additional language (EAL) learners in Years 7-11. There are 8 steps in the acquisition of English in the 4 skill areas; **Listening and Understanding, Speaking, Reading and Writing**. It will enable class, subject and support teachers to assess and track the progress of the receptive and expressive English language skills of their EAL learners.

Each skill is divided into 8 steps. The first 4 steps show the stages that a beginner learner goes through. Steps 5 and 6 describe the development stages of an intermediate EAL learner and steps 7 and 8 of an advanced EAL learner. The 8 steps show a development of English language acquisition from a level of no English to a level of English language skills which are equal to that of a monolingual learner of the same age.

EAL learner	EAL level	Key
Beginner	Step 1	S1
	Step 2	S2
	Step 3	S3
	Step 4	S4
Intermediate	Step 5	S5
	Step 6	S6
Advanced	Step 7	S7
	Step 8	S8

It is advised that this tracking tool is used alongside other assessment systems. It has been developed as a framework to show how language is used at different levels and how learners acquire their additional language. EAL learners will progress at different rates due to a range of factors (e.g. first language development, age, previous education, motivation). A learner's progress may vary between the skill areas; some learners may progress rapidly through the listening/understanding and speaking skill areas and for others the tracker may indicate that speaking skills are weak compared to writing skills. Language learning is an individualised process. It can take an EAL learner **anywhere between 5-10** years before their competence in English enables them to perform academic tasks equivalent to those of their English speaking peers.

To ensure that all EAL learners are able to make the accelerated linguistic progress in English to bridge the gap between themselves and their English speaking peers, the language demands of the curriculum need to be identified and strategies put in place to support their needs. Different strategies are required at **beginner, intermediate** and **advanced** level. This document offers examples of strategies to support the EAL learner at each step of their additional language development. Aspirational targets need to be set to ensure that EAL learners make the accelerated progress towards and beyond national expectations.

How to track progress

- Identify and highlight the descriptors that your EAL learner is achieving in the EAL levels of Competence for Listening & Understanding, Speaking, Reading and Writing.
- Estimate how far the EAL learner is succeeding within the steps in each language skill.

- Starting to work within the step- . 1 (best fit)
- Working within the step- . 2 (best fit)
- Working competently within the step- . 3 (best fit)

e.g. Step 2 working within the step - **S2. 2**

- Transfer their levels in all 4 language skill areas to the Profile of Competence

EAL Steps

Beginner EAL Learner	Step 1	<p>Early stage EAL learners and New Arrivals</p> <p>These learners are usually within their first two years of learning English</p> <p>There needs to be an emphasis on basic speaking and listening skills and vocabulary development at this stage.</p> <p>Needs considerable amount of EAL support. These learners may benefit from individual language plans which focus on English language development in all 4 language skill areas.</p>
	Step 2	
	Step 3	
	Step 4	
Intermediate EAL Learner	Step 5	<p>Learners who are becoming confident users of English</p> <p>Their effective oral and non-verbal communication skills may mask the fact that they have not mastered grammatical forms such as tense. These learners will require support to extend their range of adjectival and adverbial language.</p> <p>Requires on-going EAL support to access the curriculum fully.</p>
	Step 6	
Advanced EAL Learner	Step 7	<p>Learners who are fluent users of English in most social and learning contexts</p> <p>These learners are confident social speakers of English and may appear to be able to cope with the demands of the curriculum. These pupils need support in developing their academic abilities in English, particularly in relation to producing appropriate written genres.</p> <p>Needs some EAL support to access complex curriculum material and tasks.</p>
	Step 8	

Personal and Social contexts	Strategies
<ul style="list-style-type: none"> • Pupil is showing signs of distress. • Pupil appears settled and feels safe in their new environment. • Pupil has friends in school. • Pupil has established several friends outside of school. • Pupil appears isolated in school and is finding social and/or cultural integration difficult. • Pupil forms relationships with a wider range of language backgrounds. • Pupil with limited English befriends child with challenging behaviour. • Pupil is over-physical with others, can become/seem aggressive. • Pupil attends additional/first language school e.g. Japanese school, Arabic school (frequency). • Pupil is comfortable to engage with the full range of curriculum opportunities. • Pupil chooses not to speak at school. 	<ul style="list-style-type: none"> • Carefully buddy pupil with sensitive pupils in class. Consider grouping with a range of different buddies for different activities throughout the school day. • Class teachers to discuss with the whole class ways to help new arrival settle and the use of the 'buddy system.' • Use a quiet zone from where the EAL learner can observe others until ready to join in. • Talk to the EAL learner about what the other children are doing. • Create a 'Welcome Book' containing pictures of the learner in different areas of the setting. • For younger learners (EYFS & KS1) provide a toy or item which will comfort them initially.

Family contexts	Strategies
<ul style="list-style-type: none"> • Pupil has been prepared for the transition into an English speaking school. • Parents need support to communicate with the school in English. • Parents need support to aid the completion of reading practice/homework. • Pupil has good attendance with no trends of concern in attendance or punctuality. • Pupils have extended holidays overseas during term time. • Parents seem comfortable in school, are keen to come in/engage with school and proactive about school life. • Parents are familiar with the UK school system. • Parents are aware of the range of after school activities. • Parents inform school if pupil attends additional/first language school e.g. Japanese school, Arabic school (frequency). 	<ul style="list-style-type: none"> • Use 'Welcome Booklet' with parents to help support the pupil's time at school. • Encourage parents to talk to their child about going to school. • Seek as much information about language background and previous experience of other education settings to help establish starting points. • Ensure that parents are aware of school absence and holiday procedures • Talk to parents about work that will be sent home. Provide parents with a list of possible websites to help with homework • Provide parents with a visual timetable and a timetable of extra-curricular activities in school. Discuss the benefits of participating to develop social interaction. • Ensure that parents are <u>directly/verbally</u> informed about special events at school i.e. Inset days, Non-Uniform days, World Book day etc. • Invite parents into school to help familiarise EAL pupil with school routine.
